

# Care in the Comfort of Home: **WELLNESS CONNECTION**

Independent Living, Assisted Living and Memory Care are the foundation of supportive living in our community. However, we understand that every resident is unique and so are their needs. We also understand how mentally and physically draining it can be to get to frequent medical appointments. In order to meet changing needs and alleviate the stress of getting to outside appointments, we've brought together a number of health services that are offered to our residents right in the comfort and convenience of home.

**PRIMARY CARE**
