

# Advanced Primary Care Management From Curana Health

## BETTER CARE WITH MORE SUPPORT AND RESOURCES FOR YOU!

Curana Health's **Advanced Primary Care Management (APCM)** Program is a monthly service that gives you extra help between appointments with your doctor.

### WHY JOIN CURANA HEALTH'S ADVANCED PRIMARY CARE PROGRAM?

#### Primary Care Like Never Before

This program was created by Medicare to give you more support and resources. Our goal is to improve your health, happiness, and dignity so you can spend more time on what matters most to you.

#### Caring for You Even When You Are Feeling Your Best

Even though you don't visit your doctor every day, your health can still change. APCM helps spot any issues early before they become serious.

#### Support at Every Step

We will be here for you when you get sick. We want to make it easier for you to get the help you need, when you need it.

## KEY FEATURES

### ✓ Comprehensive Care Management

Our team of trained nurses focus on your long-term health. We make sure your healthcare providers are all on the same page and address any changes in your health early so things get better and not worse.

---

### ✓ Personalized Care Plans

When you join the APCM Program, we create a care plan just for you. It is based on your health, preferences, and what matters most to you. We update this as your needs and wellness goals change.

---

### ✓ Transitions of Care Management

If you are hospitalized, we will work with the hospital to make sure they understand your health needs. When you're ready to leave, we will help you understand your treatment plan and support your recovery back at home.

## AGING BETTER

Curana Health's Advanced Primary Care Management Program gives you more tools, staff, and support to manage your health between doctor visits.
